

# PETE HERMAN KNOCKS OUT JIMMY WILDE, IDOL OF ENGLAND, IN 17th ROUND

## GRIFTH RETURNS, HEAVING PRAISE ON NEW MANAGER

Old Fox Will Have Plenty To Do in President Role.

By JACK NYE.

When Clark C. Griffith returned yesterday from the Chicago baseball meeting where he transferred the managerial toga to the shoulders of George McBride, he had some additional words to say about his new field leader.

He was decidedly complimentary. In fact, which is not surprising under the circumstances.

"McBride ought to be a good manager," said Griffith. "He knows a lot of baseball and has had some valuable experience in recent years. He always wanted to stay here and I told him some time ago that when I found it necessary to give up the job he could have it. I am expecting him to come through in fine style."

Griffith also repeated the assurance that McBride was to be manager in all that the world implies.

"I'll probably go South with the team," he said, "and take some of the trips, but there is going to be no interference with the manager on the field. He is going to run the team. If he wants any advice from me he can have it, but it's his job to win the ball games."

Griffith is not planning to lapse into a life of ease and luxury. Far from it. He's going to devote more time to the executive duties connected with the presidency and figures that's enough to keep one man hustling.

One of Griffith's plans, now that he has more time for other things, is to build up a scouting system that will be on a par with any in the business. He expects to put three or four scouts on the road, combining the bushes for talent. When they find a good prospect, Griffith himself will go to pack up and give the player personal inspection before signing his name on the dotted line.

He is going to try and land our share of the best in the minors," he declared, "and ought to be able to do it when we get this system under way."

Griffith has made no definite arrangements for coming to Washington to assume control, it develops, but may drop in any old time. He is tickled to death with his new job, according to President Griffith.

**What is an Expert.**

I have known thousands of fighters and seen thousands of ring battles, and some years ago I thought I qualified as an "expert." But the more I saw of boxing and the more I heard of "expert opinions" the more I incline to the belief that "there ain't no such animal." There is no such thing as positive knowledge of the outcome of a fight between two men, even fairly well matched. The best anyone who knows boxing thoroughly, from inside and outside the ring, can do is to weigh all the conditions carefully and then try to make a first class guess.

**Georges Needn't Worry.**

Cable reports say Georges Carpentier was a little disappointed because his new heir was a girl instead of a boy, as he hoped to bring up a new champion for France. But why not? Time change and sixteen or eighteen years from now boxing may be a ladies' sport. In any case I expect to hear that Mademoiselle Carpentier is a crack golfer, flier, tennis player, swimmer and diving expert and a few other kinds of a champion. Leave it to Georges.

**A Bad Golf Rule.**

Western Golf Association and United States Golf Association have decided to stop fighting each other and shoot off the same tee. This is tough news for 800,000 American golfers, who were praying for the annihilation of the rules committee that first thought of a two-stroke penalty for out of bounds. The Western Golf Association had promised to "Americanize golf." Plenty of room for an out-of-bounds ball in America. The heavy penalty was a little designed for use in England, where a ball can't go out of bounds without falling into the sea. (Copyright, 1921, by the Bell Syndicate, Inc.)

**Scrambled Anatomy.**

Joe Stecher may be out of wrestling this winter because of a bruised arm. Lewis squeezed his head and put Stecher's left wing out of commission. This sounds like the story about Jim Barry, who knocked Sam Langford down so hard that he sprained Sam's ankle, and the time Jack Dempsey hit Brennan on the jaw and broke Brennan's leg.

**Flashes on the Former Champ.**

Out in Kansas they say that if Jess Willard "gets started" this time Dempsey will think he's been struck by a Kansas cyclone. Close observers say that March 17 is out of season for Kansas cyclones.

The only thing Jess didn't have in his corner at Toledo was a cyclone cellar. And that was the only thing he needed.

Story from Toledo that Jess has been seen leading a \$10,000 bull around, chucking it under the chin with his right hand, indicates that Jess has been in hard training. Now if he can only chuck Dempsey under the chin it may be his.

**Willard Still Dangerous.**

I see a lot of "experts" say Willard won't have a chance with Jack Dempsey when they meet at Madison Square Garden. All I do is based on the Toledo fight. Dempsey is a better fighter than Willard ever was for several reasons. He is faster and more active. He is always in perfect condition, and he never has made the mistake of running wild and getting fat, slow, sloppy and out of shape between fights. He takes on a match whenever he can get one, so he never grows rusty in the matter of knowing how and when to hit. As champion he is as active as Willard was slothful.

But opposed to this is the undeniable fact that a man 5 feet 7 inches tall, built in proportion, known to be able to hit hard when in danger, a skilful boxer, and weighing about 200 pounds in condition, is likely to knock out any man living and always has a chance until he is counted out. No one can say that Willard has courage and endurance. The way he came up from seven knockdowns at Toledo, every one the direct result of a crushing blow perfectly delivered and perfectly placed, proves that.

Dempsey is the better fighter, but it is absurd to ignore the possible upset of all dope in a sport that has shown so many reversals of form in the past.

Dempsey said a wonderful when he observed, "I'd hate to have Willard land an uppercut on me when he is fresh."

**Parsons Wins Third Money.**

William Parsons defeated "Devil Dog" Henshaw 10 to 8 in last night's play-off in the District pocket billiard championship series, winning third place and \$20 prize money.

**Cubs Trim McPhersons.**

The immaculate Cubs easily defeated the McPherson quint yesterday by a score of 67 to 6. Simonds and Sheehan featured with their accurate shooting.

**Lafayettes Beat Clovers.**

The Lafayette defeated the Clover A. C. yesterday in the Carroll Institute gym by a score of 30 to 14.

**Gonzaga Meets St. John's.**

The Gonzaga High basketball team plays St. John's this afternoon in the Carroll Hall gym at 3:30 o'clock.

**C. U. to Meet Humphreys.**

Catholic University's basketball team will clash with the Camp Humphreys quint Saturday night in the Brookland gym.

**Rosedale Defeats Mets.**

The Rosedale Seniors defeated the Metropolitan A. C. last night by a score of 47 to 24 in the Rosedale gym.

## SPORTS through Eegren's EYES

By ROBERT EDGREN.

Motor car thieves in Los Angeles stole a car, drove it 100 miles into the desert, broke down, couldn't start it again, and were overhauled by officers. Which suggests that someone ought to open a car-swiper's School of Motor Technology. Judging by the daily stolen car lists in the United States, it would draw a big attendance.

## Both Fighters "Set" For Society Bout

NEW YORK, Jan. 13.—Both Benny Leonard and Richie Mitchell knocked off training early today after a few hours of final roadwork. The young men are just hanging around, as it were, waiting on the going tomorrow night to send them into battle for the light-weight crown.

There is no doubt but that the boys are thoroughly primed for the contest. It was because they were afraid of being trained too late that they did not work out in their respective quarters today. In their own words, they both feel "all set" to win.

The battle that they will wage tomorrow night will be staged under unique and picturesque circumstances inasmuch as society and the prize ring will meet and mingle on the most intimate terms.

Miss Anne Morgan, who promoted the bout for the benefit of devastated France, will have personal supervision of the entire affair at the Garden tomorrow night. Society girls will act as ushers and distribute programs. It is also expected that many prominent members of New York's social elite will witness the fight.

## COLLYER'S COMMENT on the Sport of Kings

By BERT E. COLLYER

Captain Mac. Here's one sweet horse. He wants to go a route and weight won't make any difference to him. Seems to be in very nicely in the fifth and with anything like a good rider in the coop has a wonderfully good chance to look the judges in the eye.

One word more, don't let the price scare you off. Wyoming is one D. O. P. It is likely to string along with Al. That he's all over the contender and will be knocking at the door in the fifth. Sir Grafton has a good chance to save the "peep" money.

Smart people are setting in the works on Miss Finn today. She has a chance to break free of interference will take a world of beating. One Pin, the logical favorite, is the one she has to trim. Carrie Bales is fair. The balance figure close up.

Joe Whipple has worked good enough to win the second. Better still, know the wise money will be down hook, line and sinker. Nuff said.

Gallot has not raced to best private form of late. May come to life here and make them all step to the right hand. Just cannot be worse than third.

Out of the brine barrel they hope to fish a pickler in the third. It's none other than old Back Bay which used to be enjoying a second lease on life. Is awfully fit and this way weighted will take some beating.

Sabretash is well liked by those close to the stable. May be a little better than opponent. If rated Burgoyne only has to race back to recent performance in order to be a keen contender. Thimble seems to be in a soft spot in the fourth. It's a matter of time before he will have a good boy in the pilot house.

One best bet of the day—Capt. Mac. Best bet—chance bet—One Pin. Best parlay—Seaboard, Sabretash, Sammy Kelly to show.
